

## PhD position in ultra-cold atoms at Hamburg, Germany

Fri, 2010-11-12 08:46 - [hemmerich](#) [1] **At:** Hamburg, Germany

**Deadline:** 31 January, 2011

### Location

Hamburg Germany  
53° 33' 3.906" N, 9° 59' 37.2552" E  
See map: [Google Maps](#) [2]

A PhD position is open in the atom optics group in Hamburg, Germany for studying the interaction of a Bose-Einstein condensate in an optical high finesse (> 500.000) cavity operating in the regime of resolved recoil sidebands.

See details on our group homepage:
