Research Type: Experiment

single photon generation, semiconductor quantum dots, quantum cryptography, optical quantum computing, microresonators, nanocrystals, SNOM, confocal microscopy, photonic crystals

Leader: Oliver Benson

Location

Humboldt Universität Berlin, Institut für Physik Hausvogteiplatz 5-7
Berlin 10117 Germany
52° 30' 47.3292" N, 13° 23' 46.3956" E
