

2 PostDoc positions in Theoretical Quantum Optics IQOQI (Romero-Isart Group).

Tue, 2015-03-31 12:46 - [Oriol Romero-Isart](#) [1] **At:** IQOQI - Institute of Quantum Optics and Quantum Information

Deadline: 7 September, 2015

Location

Institute of Quantum Optics and Quantum Information of the Austrian Academy of Sciences
Innsbruck Innsbruck Austria

47° 16' 9.1632" N, 11° 24' 14.7672" E

The research group (<http://iqoqi.at/en/group-page-romero-isart> [2]) led by Oriol Romero-Isart at the Institute of Quantum Optics and Quantum Information (Innsbruck, Austria) announces the opening of **two PostDoc positions in Theoretical Quantum Optics**. The appointment is for 1+1 years with the possibility of further extension. We are seeking highly motivated and enthusiastic researchers with an excellent scientific record. Women are particularly encouraged to apply.

The successful applicants will either carry on research projects related to the topics of the group (<http://iqoqi.at/en/research-ori/research-topics> [3]) or start new research directions to be discussed during the interview process. They will also gain experience in supervising students.

The group is part of an exciting research environment with the presence of world-leading theoretical and experimental groups in quantum optics, ultracold gases, and quantum information. The group also has a strong collaboration with experimental and theoretical groups outside Innsbruck.

PostDoc applications - containing CV, publication list, past research achievements, motivation letter including future research plans, and recommendation letters - should be submitted electronically using the subject line "PostDoc2015" to [o \[4\]riol \[dot\] romero-isart \[at\] uibk \[dot\] ac \[dot\] at](mailto:oriol.romero-isart@uibk.ac.at).

Applications will be considered until the position is filled.

This announcement is for information purposes only. The formal appointment will be made through the Institute and University HR department at a later stage.
